

## Lead Emissions in the UK

Use the UK Emissions Interactive Map to view areas where **lead** is highest in the **road transport** sector.

Label the main areas with the highest levels of lead on your map. Add colour to indicate where lead levels are highest and add a legend next to your map.

# Methane Emissions in the UK

Use the UK Emissions Interactive Map to find out where **methane** is highest in the **agriculture and farming** sectors.

Label the main areas with the highest levels of methane on your map. Add colour to indicate where methane levels are highest and add a legend next to your map.
