

# HALF MARATHON TRAINING PLAN - IMPROVERS

THIS TRAINING PLAN IS DESIGNED TO GET YOU TO THE START LINE OF THE HALF MARATHON FEELING PREPARED AND CONFIDENT THAT YOU CAN ACHIEVE YOUR GOAL.

## THE RIGHT PLAN FOR ME?

This 12 week improvers runner's plan is designed for those who run more regularly. Perhaps you have completed a 10km or half marathon before and are looking to step up in distance or improve your time. This plan will see you training 4-5 times a week and is suitable for runners aiming for anything between 90 minutes right through to 2 hours - 2 hours 10 minutes. We would encourage you to complement the running outline with core conditioning and cross training as outlined in our Running Guide.

# HALF MARATHON TRAINING PLAN - IMPROVERS

THIS TRAINING PLAN IS DESIGNED TO GET YOU TO THE START LINE OF THE HALF MARATHON FEELING PREPARED AND CONFIDENT THAT YOU CAN ACHIEVE YOUR GOAL.

## IS THIS EVERYTHING I NEED TO KNOW?

No – this plan is supported by our Running Guide, which gives more detail on the structure of the running sessions and top tips on nutrition and recovery to leave you fitter, stronger and more energised as you progress through your training journey.

## WHY TRAIN IN THIS WAY?

If you keep doing the same things over and over again you can't expect different results. This plan is designed to add variety, structure and progression to your training. It will challenge you across a range of different heart rate zones and gradually build up your ability to run at your desired goal half marathon pace.

## WHAT IF I AM NOT THERE YET?

This training plan assumes you are able to run a 30 minute continuous run at an easy pace. Really focus on holding back your effort on your easy runs - many beginner runners try to run them a little too hard. You can always mix the sessions in the plan with cross training.

# HALF MARATHON TRAINING PLAN - IMPROVERS

- Important note: please do a 15-minute warm-up and cool-down before threshold, continuous hills or interval sessions. - If you're feeling OK, you may wish to consider a 20–30 minute recovery run in the morning before any of the quality sessions above.
- Always substitute cross-training for running if you are injured, very sore or it's not safe to run.
- Please add core conditioning, Pilates or yoga classes once or twice a week if you have time.
  - Try to stretch every day for at least 10 minutes.
  - Always eat within 20–30 minutes of finishing a run.
- Always train at the specified paces; don't compromise or run too hard. Tiredness always catches up, so take extra rest if required.
