

# MARATHON TRAINING PLAN – EXPERIENCED

This advanced marathon plan is designed to get you ready to race your marathon and is designed for those looking to progress their current marathon PB and particularly those looking to run 3 hours 15-30 minutes or faster, keeping it all in balance.

Performance training, and developing your fitness can seem complicated at times with lots of information and conflicting advice. In truth it can be kept pretty simple. The key is the training triangle you see to overleaf. Most of us think about the training sessions we need to do to become stronger, fitter or faster. In reality you won't really make gains until the other two sides of the triangle - the nutrition, and the rest and recovery are also considered as much focus and attention. As you increase your training keep the triangle in balance by improving your nutrition by ensuring you listen to you body and respect its need to rest in order to improve.

# MARATHON TRAINING PLAN – EXPERIENCED

This plan.

This advanced marathon plan is designed to get you ready to race your marathon and is designed for those looking to progress their current marathon PB and particularly those looking to run 3 hours 15-30 minutes or faster.

Rest. Recovery between sessions is as critical to success as the training itself. Your body improves and progresses during these rest phases, rest days and as you sleep.

Nutrition. You need to fuel your training and recovery correctly to ensure you have the right macro and micro nutrients in the body to both have the energy to train hard, but also heal muscles and cells between sessions and keep you immune system, blood and bones strong

Week number	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
1	30-40 MINUTE RECOVERY RUN PLUS CORE	Am: 30 MINUTE EASY RUN Pm: 45 PROGRESSION RUN 15 MINUTES EASY 15 MINUTES STEADY 15 MINUTES THRESHOLD	45 MINUTE EASY RUN OR CROSS TRAINING PLUS CORE	60 MINUTE EASY RUN	REST	CONTINUOUS HILLS 6 MINS OF EFFORT WITH 90 SEC JOG REC X4 45 MINS TOTAL	LONG RUN 80-90 MINS CONVERSATIONAL PACE

## MARATHON TRAINING PLAN – EXPERIENCED

# MARATHON TRAINING PLAN – EXPERIENCED

- Always substitute cross-training for running if you are injured, very sore or it's not safe to run.
- Please add core conditioning, Pilates or yoga classes once or twice a week if you have time.
  - Try to stretch every day for at least 10 minutes.
  - Always eat within 20–30 minutes of finishing a run.
- Always train at the specified efforts; don't compromise or run too hard. Tiredness always catches up, so take extra rest if required.
